Using SAP Business One HANA Dashboards
Tuesday, September 2, 2014
3:00 p.m. ET
This webcast reviews how Business One users can publish and consume the pre-defined Crystal Dashboards of SAP Business One powered by SAP HANA®. Participants will learn how to activate these dashboards in Business One Cockpit and any specific configuration parameters available for each dashboard. Dan will also briefly discuss the license, tools and skills required to build your own custom Business One HANA dashboards.
